Sir:

In response to the Official Action sent on October 13, 2000, paper no. 8, please enter the following Amendment:

## IN THE CLAIMS:

Please amend the claims as follows:

(Amended) A method of controlling communications between an electronic 26. groupware communication server and communication units, the method, at the electronic groupware communication server, comprising:

assigning a use limit for group resources of a first group, wherein the first group has a predetermined number of users;

allowing users belonging to the first group to draw on unused group resources; monitoring the use limit for group resources to determine if the use limit for group resources is exceeded; and
